THE Loyal Order of Moose is now one of the foremost fraternal organizations extending from the Atlantic to the Pacific and includes within its membership a great many of the foremost men in public view, such as Vice President Marshall, Speaker Champ Clark and over one half of the membership of the United States Congress.

It takes into its fold all white males of good moral character without regard to the religious or political associations and it extends to all of you who are present within this hall a most cordial invitation to join its ranks.

From a small number in but five or six years it has grown until its membership amounts to about 600,000.

All men from 21 to 55 who are sound morally and physically and are able to earn an honest living we welcome, if otherwise qualified but over age or unable to pass a satisfactory physical examination you may join as a social member.

Astoria Lodge No. 408 held its first meeting on Dec. 4th, 1910, and was chartered on Mar. 4th, 1911, there are now 1588 lodges, so that for every working day a new lodge has been instituted.
